NOTES: Percents are cumulative rather than annual percents.

Each graduation year contains all recorded graduations of students in a graduation year of December, May, and August.

Each cohort consists of all new full-time freshmen entering SIUC in the respective summer and continuing into fall, or entering in that fall semester for the first time. On-campus only degree-seeking students are included in each cohort.

All 10th-day cohorts were tracked through the end of Fall Semester 2010, and the status of the student is recorded each fall semester following the fall semester the student entered as a new freshman: did the student graduate, is the student still persisting, or is the student a non-persister.

Continued to 2nd Year, 3rd Year, etc. is defined as a student who returns for the Fall semester of that year.

The cohort headcount for new, full-time freshmen will not match Fact Book Table 2 because Table 2 includes associate degree-seeking and off-campus students as well as baccalaureate degree-seeking students.

Figure 22: Undergraduate Success and Progress Rate

NOTE: An 80% four-year success and progress rate means that 80% of students starting in Fall 2003 either graduated or are still enrolled at a higher education institution four years later.

Counts shown in the graph above are for the Fall 2003 entering class.

2,482 First-Time, Freshmen Full-Time Students

1,277 Full-Time Transfer Students
