The Student Medical Benefit Fees (\$327.20) are comprised of the SMB Primary Care Fee (\$153.00) and the SMB Extended Care Fee (\$174.20). They fund a comprehensive Student Health Program that includes emergency service, hospitalization, primary and specialty physician care; emergency dental care; and prevention programs. Students who pay the Primary Care Fee are entitled to medical benefits at the Student Health Programs Clinic. Students who feel they have comparable insurance coverage may apply for a refund of the SMB Extended Care Fee. Refund applications must be submitted to the Student Medical Benefits Office by Friday of the second week of a fall or spring semester, or by Friday of the first week of a summer session. For more information contact the Student Medical Benefit Office, 618-453-4413. All of the above is subject to change.

Effective Summer 2005, students registered on-campus for the Summer Session, who were not enrolled on-campus during the prior Spring Semester, will be assessed the SMB Extended Care Fee. Students who were enrolled on-campus during the prior Spring Semester were assessed the SMB Extended Care Fee at the time and will, therefore, automatically have SMB Extended Care coverage during the Summer Session without being charged additionally for it.
